THE MEDICAL COLLEGE OF PENNSYLVANIA

TO OUR FAMILY

During our three years of learning we have met many people from various backgrounds, but they all seem to have one thing in common...their own respective family. We have seen these people interact and how an illness brings them closer together or further apart. We have learned many things from them and hope that we have been able to make their hospital stay a little less stressful.

Our own family has played an important role in helping to form many of the ideals and values that have helped us during our stay here. With their help and constant guidance, we have been able to pursue our goal. So, we the class of 1972, wish to say thank-you and dedicate this yearbook to you, Our Family.
